

Product Description

The SupaPowa® dual mode transmitter Surface Mounted offering comes with an Autotex® Softouch polyester anti-slip top seal. This high-quality textured polyester film consists of a base polyester with a flexible, chemically bonded and UV-cured textured coating.

Its distinctive soft to-the-touch silky texture is incredibly tactile yet robust and still delivers exceptional resistance to a wide range of chemicals, solvents, surface wear, and abrasion.

The circular [100mm diameter] top seal is available in various options.

Bespoke options [size, shape, colour or branding] can be agreed with SupaPowa®.

Bespoke designs will incur a setup charge.

Product Specification

Part number	SP-PD-CB-XX-16 V1
Finish	Polyester Soft Touch
Colour	Black with Chrome outer ring
Net weight	2g
Dimensions	100mm Dia x 0.1mm Depth
Notes	Anti-slip top cover with adhesive backing for surface mount
